HARISHKUMAR M

Full-Stack Developer | PHP | Laravel | Drupal | React.js | Node.js

harishpmkumar2002@gmail.com | +91 8526309986 | Coimbatore, Tamilnadu

PROFESSIONAL SUMMARY

Software Developer with nearly 3 years of professional software development experience and hands-on experience building full-stack web applications. Skilled in PHP, Laravel, Drupal, JavaScript, React.js, Next.js, Node.js, Express.js, MongoDB, and relational databases. Experienced in developing REST APIs, custom modules, responsive user interfaces, authentication workflows, and database-driven applications. Familiar with real-time communication using Socket.IO, payment gateway integration, AWS services, Git, and API testing.

WORK EXPERIENCE

Hapus Infotech **Feb 2024 - Present**
Software Developer

- Developed and maintained full-stack web applications using PHP, Laravel, Drupal, JavaScript, React.js, and Next.js.
- Built reusable frontend components and responsive user interfaces using React.js, React Hooks, Bootstrap, and modern JavaScript.
- Designed and integrated RESTful APIs using Laravel and Node.js/Express.js to connect frontend applications, backend services, and third-party platforms.
- Developed backend modules, business logic, and database-driven workflows using Laravel, Drupal, Node.js, and Express.js.
- Worked with MySQL, MariaDB, PostgreSQL, and MongoDB to manage application data, design schemas, and maintain data consistency.
- Implemented authentication, authorization, input validation, and role-based access control to secure application workflows.
- Integrated third-party APIs, payment gateways, and AWS services, including S3, IAM, CloudWatch, and DynamoDB, to support application functionality.
- Used Git, GitHub, Composer, npm, and Postman for version control, dependency management, API testing, debugging, and application maintenance.

SKILLS

- **Programming Languages** - PHP, JavaScript, HTML5, CSS3
- **Frontend Development** - React.js, Next.js, Bootstrap, jQuery, React Hooks, Responsive UI Development, Fetch API
- **Backend Development** - Laravel, Node.js, Express.js, Drupal, REST APIs, MVC Architecture, Middleware
- **Drupal Development** - Drupal 10/11, Custom Module Development, Forms API, Entity API, Database API, AJAX API, Hooks, Plugins, Services, Caching, Twig, Drush
- **Databases** - MySQL, MariaDB, PostgreSQL, MongoDB, Mongoose
- **Authentication & Security** - JWT, bcrypt, Role-Based Access Control, Protected Routes
- **Real-Time Development** - Socket.IO, WebSockets, Real-Time Messaging
- **Integrations** - Razorpay, PayPal, Third-Party APIs
- **Cloud Services** - AWS S3, IAM, CloudWatch, DynamoDB
- **Tools** - Git, GitHub, Composer, npm, Postman, Vite, XAMPP

KEY PROJECTS

Placement Pro – Student Placement Preparation Platform

Laravel | Next.js | PostgreSQL | Redis | AI API Integration | AWS S3

- Developed Laravel backend APIs for student assessments, aptitude tests, programming challenges, coding practice, and AI-powered interview preparation.
- Managed PostgreSQL data workflows for assessments, application records, and student progress tracking.
- Implemented Redis caching to improve data retrieval efficiency and application responsiveness.
- Integrated AI APIs, AWS S3, and communication gateways through a centralized notification system, alongside application usage logging and tracking.

WP CRM

Drupal | MySQL | AWS S3 | Payment Gateway Integration

- Developed a multi-tenant CRM system for managing companies, contacts, products, and users.
- Implemented role-based access control and tenant-specific data handling to separate access across organizations.
- Built product management and cart workflows and integrated payment gateway functionality.
- Integrated AWS S3 for file storage and implemented database operations to maintain reliable tenant-specific records.

Food Revive — Surplus Food Marketplace

MongoDB | Express.js | React.js | Node.js | JWT | Razorpay

- Developed a full-stack surplus food marketplace supporting customer and vendor workflows for food listings, discovery, and purchasing.
- Built REST APIs for authentication, food listing management, order processing, and payment workflows using Node.js and Express.js.
- Implemented JWT authentication, role-based access control, and request validation to secure application endpoints.
- Integrated Razorpay payment processing and connected the React frontend with backend APIs using the Fetch API.

EDUCATION

BE - Computer Science and Engineering **Aug 2019 - Jun 2023**

Park College of Engineering and Technology

- Final CGPA : 8.3
